

April 24, 2020

Dear LAHO shareholders.

Lans Management continues to stand by MSSV and the deal we have with them regarding the acquisition of GSCG. As we are all aware, the COVID-19 pandemic has had a profound impact on the concept of business as usual and has caused significant challenges and delays. MSSV informed Management that while every effort to close the acquisition by this weekend had been made, factors outside its control have prevented that goal from its completion.

The LOI with GSCG has successfully been amended to extend the closing deadline and MSSV has filed an 8K to that effect. Management is committed to seeing this transaction through and although it is disappointing that this has been delayed, it is understandable in the context of current prevailing events. Management would like to reiterate that although the timelines have been moved, nothing else has changed with respect to this transaction and management expects this transaction to close. As well, Management will keep shareholders informed as to when the shareholder vote will be scheduled.

It is Management's continued opinion that MSSV, through the acquisition of Global Stem Cells Group, has the potential to create significant value for Lans shareholders.

Please refer to this section of Lans website for any further communications that may be posted from time to time by Lans.

Thank you and stay safe.
